MEET ME AT DROOPS.

AN ARTIST'S SUCCESS

is greatly dependent upon the instrument he plays. Why do the greatest living pianists—

PADEREWSKI,

USE
THE
STEINWAY
?

THE ANSWER IS SIMPLE!

The "Steinway" possesses the most beautiful tone quality—its pianissimo being like a gentle zephyr and its volume like the surging of a mighty surf. Its construction is based upon the most scientific principles, and its action is firm and elastic—easily adjusted to every player's touch.

The Knabe Piano

THE SILVER MEDAL, NATIONAL EXPORT EXPOSITION, PHILADELPHIA.

This award was only made after the most careful and critical examination on the part of the judges.

Carrying off the highest honors at the Philadelphia Export Exposition is but further evidence of superiority of the Knabe Piano.

The Knabe Piano today stands without a successful competitor to the title of the foremost piano of the land. Its incomparable points of excellence are imitated, but never equaled.

Its Premier Position is constantly assailed, but never successfully.

The Knabe Piano of today is the evolution of the piano built by Wm. Knabe I, 63 years ago. The house of Knabe has gone on uninterrupted ever since, building pianos, and building better pianos year by year until today the Knabe Piano stands the realized ideal of piano excellence—the pattern after which are made the pianos of America that aspire to be somewhere in the Knabe class.

If you are ambitious to own the best piano—viewed from any standpoint—you will be satisfied with none but a Knabe.

We will consider it a privilege to show you the new Knabe grands and uprights when you call.
